

How to develop an Objective Structured Teaching Examination-OSTE, an assessment tool for measuring teaching competencies in MHPE Program.

Prof. Dr. Rahila Yasmeen

Level: Intermediate

Who should attend: Faculty who is teaching and assessing the students of Master's in Health Profession education program.

OSTE is a reliable and valid assessment tool for assessing the teacher's competencies in master's in Health Professions Education program. The objective of the workshop is to develop the objectively structured teaching examination (OSTE) stations, for assessing the teaching competencies of master's in health Professions Education Program.
