Writing for Publication Workshop

Introduction

This workshop is part of the regular programme at ANZAHPE conferences. The Association is keen to assist its members in developing academic writing skills. In particular it seeks to encourage and upskill early career academics.

Aims

- Assist participants in getting their message across in publications, by working on small samples of text
- Provide feedback and advice on an issue related to a particular paper
- Learn about the reviewing and publishing process, using FoHPE as a case example

Activities

The workshop will be focused on the needs of the participants. The participants will be required to bring along a piece of their own writing to the workshop; typically a title and an abstract for work that they hope to publish. A mixture of short presentations and small group work will be used.

Facilitators: The Editor and members of the Editorial Board of *Focus on Health Professional Education (FoHPE)*

Intended participants: This workshop is intended for novice writers/researchers. This includes those who are currently writing for publication for the first time as well as those who have already had some work published.
